

**UNIVERSITY OF NICOSIA**  
**ΠΑΝΕΠΙΣΤΗΜΙΟ ΛΕΥΚΩΣΙΑΣ**

The Department of Life and Health Sciences of the School of Sciences and the S&M BIOHEALTH LABORATORIES LTD will like to invite you to a talk on:

***"Immediate-Early Genes as Master Regulators that Can be Controlled in a Variety of Disease Settings".***

**By Professor Levon M. Khachigian, Ph.D., D.Sc.**

**At the UNESCO Amphitheater at 16:30 hours  
On Wednesday, the 14<sup>th</sup> of October, 2009**

**Professor Khachigian is the Director at the Centre for Vascular Research and the Head of the Transcription and Gene Targeting Laboratory of the University of New South Wales in Australia.**

**A molecular and vascular biologist, Professor Levon Khachigian has discovered key networks of transcriptional control and inducible gene-regulatory circuits. He has also developed a new class of drugs with the potential to treat a diverse range of health problems, from cancer and inflammation through to eye and heart disease.**

**Note: The talk (45 min) will be in English.**
